PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with **8.49 CGPA** and hands-on experience in **Python, Machine Learning, Generative AI, RAG, LangChain, SQL, and REST APIs**. Built AI applications using **LLMs, embeddings, semantic retrieval, and API integration**. Strong analytical and problem-solving skills with interest in developing real-world AI/ML solutions.

SKILL SUMMARY

Programming: Python, Java, SQL, JavaScript
Generative AI: LLMs, Prompt Engineering, RAG, LangChain, ChromaDB, Groq
AI/ML: Machine Learning, Deep Learning, CNN, RNN, Pandas, NumPy, Data Preprocessing, Model Evaluation
Backend: Flask, REST APIs, API Integration
Frontend: React.js, HTML, CSS
Databases: Firebase Firestore, MySQL
Tools: Git, GitHub, Antigravity, VS Code, Postman, Jupyter Notebook, Vercel,

INTERNSHIP EXPERIENCE

Data Analytics Intern | Infosys Springboard 6.0

August 2025 – October 2025 | Remote

- Processed and cleaned datasets using **Python** for analysis and validation.
- Developed Python scripts for **data preprocessing, validation, and automation**.
- Built **Power BI dashboards** to communicate business insights and performance metrics.

PROJECTS

ResumeIQ AI – AI Career Coach Using RAG | Python, LangChain, ChromaDB, Groq, Streamlit

- Built an AI career coach using **RAG, embeddings, and semantic retrieval** to analyze resumes against job descriptions.
- Integrated **Groq LLM APIs** and document ingestion for context-aware recommendations.

PhishShield AI – Phishing Detection Platform | Python, FastAPI, Machine Learning, NLP

- Developed an AI-powered platform for **URL, email, and QR-code** phishing detection.
- Integrated **ML-based classification, threat intelligence APIs, and risk assessment** through FastAPI.

RakthaSetu – Blood Donation Management System | React.js, Firebase, Firestore, Tailwind CSS

- Built a responsive platform for **donor registration, authentication, and blood-group search**.
- Implemented **donor filtering, emergency notifications, and responsive dashboards** using Firebase Firestore.
- Live Project: [Link](#)

EDUCATION

Bachelor of Technology (Computer Science Engineering) – MVGR College of Engineering, Vizianagaram, AP
CGPA: 8.49 | April 2027

Intermediate (MPC) – Sri Chaitanya Junior College, Srikakulam, AP
Percentage: 95.9%

CERTIFICATIONS

- Executive Professional Certification Program in Generative AI & Machine Learning – IIT Indore, **2026**
- Python Essentials 1 & 2 – Cisco Networking Academy
- Microsoft SQL Certification – Intellipaat
- AWS Machine Learning
- SmartBridge – Vibe Coding
