PROFESSIONAL SUMMARY

Computer Science Engineering student with strong knowledge of **Python, Flask, SQL, Object-Oriented Programming, Data Structures, and Database Management Systems**. Experienced in developing full-stack web applications using **React.js, Flask, Firebase, REST APIs, and AI integration**. Skilled in building scalable backend services, implementing secure authentication, debugging applications, and deploying cloud-based solutions. Passionate about software development with excellent problem-solving skills and eager to contribute as a **Python Web Developer**.

TECHNICAL SKILLS

Programming: Python, SQL

Web Technologies: HTML, CSS, JavaScript, React.js

Software & Back-End Development: Flask, REST API Development, Object-Oriented Programming (OOP)

Databases: Firebase Firestore, MySQL, PostgreSQL (Basics)

Libraries & Packages: Pandas, NumPy, Chart.js, Leaflet.js, Axios

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Postman, Firebase, Vercel, Render

INTERNSHIP EXPERIENCE

Data Analytics Intern | Infosys Springboard 6.0

[GitHub](#)

August 2025 – October 2025 | Remote

- Developed Python scripts to process and clean datasets containing over **88,000+ records**.
- Designed modular Python programs for data preprocessing, validation, and automation.
- Debugged and optimized Python code to improve processing efficiency.
- Built interactive Power BI dashboards for business insights and reporting.
- Used Git and GitHub for version control and collaborative development.

PROJECTS

RakthaSetu – Blood Donation Management System

[Live Website](#)

Tech Stack: React.js, Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging (FCM), Cloud Functions, Tailwind CSS

- Developed a responsive blood donation management platform enabling secure donor registration and authentication.
- Implemented an **Emergency Alert System** that sends real-time notifications to nearby donors using **Firebase Cloud Messaging (FCM)**.
- Developed backend notification services using **Firebase Cloud Functions** and Cloud Firestore for secure data storage.

- Built donor search functionality with blood group and pincode filtering for faster emergency response.
- Designed responsive dashboards and reusable UI components following modern web development practices.

Technologies: React.js, Firebase, Cloud Firestore, Cloud Functions, FCM, Tailwind CSS, Git, GitHub

COVID-19 Trend Analysis using Python

[GitHub](#)

- Developed a Python application to preprocess and analyze large healthcare datasets.
- Implemented time-series forecasting using Prophet.
- Built modular Python scripts for automation and visualization.
- Improved prediction accuracy through data preprocessing.

Sustainable Waste Management Assistant Using Generative AI

[Live Website](#)

Tech Stack: Python, Flask, React.js, Tailwind CSS, Firebase Authentication, Firestore, Groq API (LLaMA 3.3-70B), Chart.js, Leaflet.js, Vercel, Render

- Developed an AI-powered full-stack web application that classifies waste items and provides disposal, recycling, and hazardous waste guidance using **Groq's LLaMA 3.3-70B**.
- Built scalable **Flask REST APIs** for waste analysis, scan history management, analytics dashboard, and nearby collection center services.
- Implemented secure user authentication and cloud database integration using **Firebase Authentication** and **Firestore**.
- Deployed the frontend on **Vercel** and backend on **Render**, ensuring responsive design and reliable API communication.

Technologies: Python, Flask, REST APIs, React.js, Firebase, Firestore, Groq AI, Tailwind CSS, Chart.js, Leaflet.js, Git, GitHub

CERTIFICATIONS

- Executive Professional Certification Program in Generative AI & Machine Learning – IITI DRISHTI CPS Foundation, IIT Indore (2026)
- Python Essentials 1 & 2 – Cisco Networking Academy
- Microsoft SQL Certification – Intellipaat
- Deloitte Data Analytics Job Simulation – Forage (2025)
- TCS iON Career Edge – Young Professional (2025)

EDUCATION

Bachelor of Technology (Computer Science Engineering)

April 2027

MVGR College of Engineering, Vizianagaram, Andhra Pradesh

CGPA: 8.49 / 10
